

Berker Yilmaz

Software Engineer Intern

Profile

Hi, I am Berker Yilmaz a 19 year old who studies in Loughborough University. I have currently finished my first Year with a First Class Honours, i love to code in my free times, and do side projects. I am also currently doing internship at DESTEK.AS for 1 month now, it is basically a hardware and networking company we are currently working on a big project which is basically changing old cisco hardware of all atms and replacing with new hardwares of Huawei for Iktisaat Bank.

Employment History

Hardware Networking Intern at Destek AS, Nicosia

July 2023 — August 2023

I Have researched which technology we should use as a company to change the hardware systems for the ATMs, showed all of the pros and cons to the company that we are working with, also when the new systems came i have given the rules and configurations to them, which ip should do routers go, extra..
